

SADDLEBROOKE VILLAS Units 35/35A BOD CANDIDATE BIOGRAPHY

Greg Morgan

My wife, Elena Love, and I have owned a home in SaddleBrooke since 2001 and have been full-time residents in the Villas since 2011. We fell in love with SaddleBrooke the first time we drove over the hill and viewed the homes, golf courses and entire community against the backdrop of the Catalinas.

We've enjoyed the community activities since moving here full time in 2010; golf, softball and book groups have been our focus. I also volunteered as a math tutor at Mountain Vista elementary school in Oracle for five years and a tax preparer for AARP for three years. Prior to moving to SaddleBrooke, I was active in Big Brother/Big Sisters in San Jose where I had a "little" for ten years and served on the BB/BS Board of Directors for two years.

I retired to SaddleBrooke after a career in Silicon Valley including a decade with Apple Computer, a decade with a startup purchased by Oracle Software and employment at several other technology startups. I primarily managed Customer Support teams, either supporting internal systems that managed the companies I worked for or supporting external customers using my companies' products. My last job was managing a consulting team spread across four time zones and two countries so I learned about online meetings long before Zoom and the Covid pandemic were part of our new, shared experiences.

I appreciate living in the Villas which is a smaller enclave within the larger SaddleBrooke community. The combination of full-time residents and snowbirds bring us a varied population with many backgrounds and perspectives which makes for a stimulating environment. I also appreciate the Villa's shared responsibility for external maintenance and the high standards for maintaining our community both for our own enjoyment and for our long-term investment value.

As shown by my activities above, I've been involved as a frequent volunteer in the places where I've lived. I enjoy building relationships that build communities. Both in my career in Customer Support and my volunteer activities, I appreciate the give and take of working with people of varied backgrounds and perspectives to meet shared goals. After enjoying the Villas for many years now, I look forward to an opportunity to give back in at least a small way by volunteering for the Villas Board.
