

The Ad Hoc Painting Group, consisting of Corky Pike, Sue Ryan and Russ Soderberg presents the following information regarding the recent Painting Survey

A painting survey was made available to homeowners through an electronic reply or a paper reply in the early part of December.

Shown below are the results of the survey.

SURVEY RESULTS

- 60% of homeowners participated with 128 survey responses.
- 33% through paper with 70 responses.
- 27% through electronic with 58 responses.
- 13% of homeowners chose a single color scheme with 27 responses.
- 47% of homeowners chose the multi color schemes with 101 responses.
- Of the 128 responses.
- 21% were for single color.
- 79% were for multi color.

Thanks to all homeowners responding to the survey. Having 60% of homeowners respond is a very good representation of homeowners and shows a great interest in our association.

We are recommending the Villas Board of Directors approves the four color painting schemes which were presented to the homeowners.

Thanks again for your participation.
