Initial

The work described in this application must meet the current ALC Guidelines. The ALC reviews all applications and will work with the homeowner as necessary to prepare a permit that complies with the Guidelines.	
The homeowner is solely responsible for the validity or accuracy of the attached information.	
All work for which a permit is issued is subject to an on-site review by the ALC.	
The homeowner is responsible for clean-up, any damage repairs and the restoration of any area that has been affected by the work described above by me or my Contractor. Failure to do so will result in the homeowner being responsible for all costs incurred by SBHOA2 in restoring the area to its original condition. In that event, the homeowner will be billed and must pay for the work performed by SBHOA2.	
Once a permit is issued, homeowners must coordinate any changes to the Scope of Work reflected on the permit with the ALC <u>PRIOR</u> to the work being performed. Work performed not in compliance with the ALC Guidelines is a violation and may result in a fine and/or necessitate bringing non-compliant items into conformity with ALC Guidelines and/or SBHOA2 Rules & Regulations.	
The homeowner understands there is an additional fee for any extension to the issued permit and that fee will automatically be assessed if work is not completed by the expiration date on the permit.	
Only contractors licensed with the Arizona Registrar of Contractors (ROC) are to perform work costing \$1,000 or more (ARS 32-1121 & 32-1151). The ALC strongly recommends use of licensed contractors.	
Construction/landscaping materials are strictly prohibited from being placed in the road or any location other than the homeowner lot at any time and for any length of time.
